Temporary Food and Beverage Permit and Compliance Requirements

The Waco-McLennan County Public Health District and you have the same goal:
To provide good, safe food to the consumer.

Permit Required

Each temporary food and beverage vendor must have a valid permit issued by the Waco-McLennan County Public Health District. Display the permit so customers can see it.

Food Preparation

Food and ice must be from commercial and regulated sources and be in good condition. No foods or ice from a home kitchen allowed. Prepare food in the proper cookware, only in a permitted or licensed kitchen. Keep all foods at the required temperatures -- 135 degrees F or hotter, or 40 degrees F or colder. It's best to monitor the internal cooking and holding temperatures of food that could spoil with a properly scaled, metal stem-style thermometer.

Equipment

Protect food, ice, utensils and single service articles from contamination during storage, preparation, display and serving with protective covers. The customer can only use single service articles.

Provide serving utensils, including ice scoops with handles, to minimize touching foods with bare hands. Food contact surfaces must be easy to clean and washed, rinsed and sanitized as needed. Keep food, food equipment and single service articles off the ground.

Water

Have plenty of hot and cold potable water available to prepare food and to clean hands, equipment, serving areas and utensils.

Dishwashing

Provide three suitably sized basins, hot and cold water, detergent, and sanitizer for cleaning equipment and utensils.

You can purchase sanitizing solution, or you can make your own by mixing one tablespoon of bleach per one gallon of water.

Follow these procedures:

- **First basin** – Wash with hot, soapy water.
- **Second basin** – Rinse with clean, warm water.
- **Third basin** – Immerse in warm water with sanitizer for one minute and air-dry.

Wiping Cloths

Have plenty of cloths and keep them in a container of clean sanitizing solution between uses. Make fresh solution frequently.

Personal Hygiene & Hand-Washing

Workers must maintain good hygiene and

personal cleanliness. Staff must not be sick and be free of infections, which may transit food-borne illnesses.

Wash hands frequently during food preparation. Provide a hand-washing sink or container of warm water with a free-flowing spigot (not push button), a catch basin, soap and disposable towels.

Do not use tobacco or eat food in preparation/serving areas.

Toilet Facilities, Sewage & Garbage Disposal

Toilet facilities must be provided. Dispose all sewage and wastewater through a sewage system.

Do not dump wastewater of any kind onto the ground. Provide trash cans with lids for garbage.

Vendor Serving Area

Construct your booths, trailers and tents with barriers to protect the food and to control public access in the food areas. Sub-flooring must be graded to drain. Construct floors of concrete, asphalt, tight wood, tarps, outdoor carpet or other cleanable material approved by the Waco-McLennan County Public Health District.

Ceilings over food preparation areas are required and must be constructed of wood, canvas or other materials to protect against the weather.

Pests (flies, roaches or rodents) must be controlled. Any combination of screening, (16-mesh), fans, doors, walls and other measures are required to restrict the entrance of pests. Food contact surfaces must be protected from pests.

Advisory

Your facility will be inspected. The health inspector may impose additional requirements to protect against health hazards related to the conduct of the temporary food service vendors; may prohibit the sale of some or all potentially hazardous foods, and when no health hazard will result, may waive or modify requirements to these rules. Failure to comply with these requirements may result in the immediate suspension of the permit, the assessment of penalties or the closing of your operations.

Preventing food-borne illness is a responsibility shared by all individuals involved in food production, preparation and distribution.
